

- Consistent with the fees structure adopted by the CAEP Board of Directors, all accredited and candidacy educator preparation providers (EPPs) will be invoiced for their annual fees based on the number of completers. A completer is defined as “*any candidate who exited a preparation program by successfully satisfying the requirement of the EPP.*” Information on an EPP’s number of completers is based on previous school year data obtained by CAEP from the EPP’s Annual Report submission. The table below shows the Annual EPP Fees for school year 2018-19.
